

BHAVYA PARVATHI

Cybersecurity Professional and Researcher | SOC Analyst | Blue Team & Threat Detection

(+91) 9949589677 • bhavyanagasai@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFILE SUMMARY

Cybersecurity professional and researcher with hands-on SOC fundamentals — log analysis, threat detection, SIEM, and phishing investigation. ISC² CC certified; CAISR (Certified AI Security & Risk) certified with applied exposure to AI-assisted cybersecurity. M.Tech background. Exploring SOC Analyst / entry-level Blue Team roles.

TECHNICAL SKILLS

SOC / Ops	Splunk (SIEM), Log Analysis, Incident Response, Threat Detection, Phishing Investigation, MITRE ATT&CK, VirusTotal
AI Security	AI-assisted Cybersecurity, AI Risk Assessment (CAISR), NIST AI RMF, OWASP LLM Top 10
Network Sec	Wireshark, IDS/IPS, TCP/IP, DNS, Nmap
Scripting & OS	Python (basic), Bash, Kali Linux, Ubuntu, Windows Security

CERTIFICATIONS

Certified in Cybersecurity (CC)	ISC ²	Dec 2025
CAISR – Certified AI Security & Risk	Red Team Leaders	Mar 2026
API Security Certified Associate	Wallarm	Mar 2026
DPDPA 2023 Certification	DPDPA Certification Body	Feb 2026
Google Cybersecurity Professional Certificate	Google / Coursera	Sep 2025
CEH – Certified Ethical Hacker (in progress)	EC-Council	Expected Jul 2026

EXPERIENCE

Cybersecurity Architecture Research Intern | iTelematics Software Pvt Ltd (EV.ENGINEER™) Jun 2026 – Present

Energy Battery Intelligence & Cybersecurity — Aerospace / Defence / EV applications

- Contributing to R&D on battery cybersecurity, threat modelling, and risk assessment for the Battery Intelligence Platform and Battery Aadhaar System; supporting AI-assisted cybersecurity and secure software development with technical documentation.

Cybersecurity Intern | Redynox

Feb 2026 (1 Month)

Tools: Burp Suite, OWASP ZAP, Wireshark, VirtualBox, Kali Linux

- Tested OWASP WebGoat for SQLi, XSS, and CSRF; documented findings with PoC and remediation steps mapped to OWASP Top 10.
- Built a VirtualBox network lab (Ubuntu + Kali); analysed live traffic in Wireshark and configured firewall rules.

PROJECTS

Network Recon & Phishing Investigation | Independent Research

Dec 2025

Tools: Nmap, VirusTotal, MXToolbox, Recon-ng, OpenVAS

- Footprinted 12 open services and 4 vulnerabilities; analysed 10+ phishing emails for spoofed domains, DKIM/SPF failures, and IOCs.

OWASP Juice Shop — Vulnerability Assessment | Independent Research

Feb 2026

Tools: Burp Suite, Kali Linux

- Exploited Auth Bypass, IDOR, DOM XSS, and Filter Bypass XSS; produced a formal VAPT report with OWASP Top 10 mapping and impact analysis.

API & Web Application Penetration Testing | Independent Research

Mar 2026

- Identified 5 API vulnerabilities (BOLA, broken auth, input validation) using Burp Suite, Postman, OWASP ZAP; delivered VAPT report with CVSS ratings and remediation steps.

ACHIEVEMENTS, STRENGTHS & HOBBIES

5+ certifications gained independently within 12 months • Trilingual: Telugu, Hindi, English • Gold Medal, State Level Hindi Talent Test, AP (2016) • Fast learner who picks up new tools and frameworks quickly • Efficient communicator — translates technical findings into clear, structured reports for all audiences • Detail-oriented with a systems-thinking mindset • Calm under pressure, dependable in shift-based and deadline-driven environments • Hobbies: Singing

EDUCATION

M.Tech — Structural Engineering | Aditya Engineering College (A), Kakinada | CGPA: 8.67

2022 – 2024

B.Tech — Civil Engineering | Aditya Engineering College (A), Kakinada | CGPA: 8.21

2018 – 2022
